## Announcement of Redtech as i-line partner

### Redtech System Plus Inc. joins the ProlYTE partner network

Philippines based Redtech Systems Plus Inc. has recently joined the ProlYTE partner network as i-line partner.

This recently founded company, headed by industry veteran Mr. Ed Aguirre, MD, is mainly active to promote and sell truss and staging systems to a group of companies active in the Philippines entertainment industry.

The increasing Philippines entertainment market sees a growing demand for affordable but – at the same time - high quality ProlYTE products.

Redtech will stock the complete i-line range, providing the business with an of-the-shelf solution at any time. Apart from being able to supply from stock, Redtech will also provide education and training service – another hot topic in the local market, where the awareness to work with certified equipment and following safe working practices is steadily growing.

As Ed Aguirre commented: "The I-line range of products fits perfect in our portfolio and we are glad to be able to offer ProlYTE's high quality products. The fact that we can support this by vital knowledge and support is crucial for this market".

The first shipment of i-line products is expected to arrive in March.

Kind Regards,

ProlYTE Asia Pacific Sales Team
