

i-line Partners for Asia & Australasia

Prolyte Group introduces i-line in ASIA & AUSTRALASIA

Prolyte Group is proud to announce that no less than 4 partners have added the range of i-line products to their existing portfolio of Prolyte products.

The introduction of the i-line and policy at the PALM show in Beijing, was well received by our existing partners, underlining the importance of not only supplying quality products at the best prices, but backing this up with excellent availability and the best service and support you can get.

The first containers of i-line products have recently arrived with our partners, which means the Prolyte X and H trusses, MPT towers and standard StageDex are now in stock for immediate delivery in Asia and Australasia, as well as Europe.
